OUR PHILOSOPHY

learn Spanish, meet people and enjoy the city!

Since opening our doors to overseas students in 2001, our goal has always been for students to learn **in a pleasant, fun and effective way** – Barcelona makes this an ideal environment.

We also want you **to have a really positive and fulfilling personal experience** while living in Barcelona.

Our school's ethos and size allows us to **attend to you personally** and help you with your requirements.

Our team is **pleased to help you** with information for sightseeing, visas, jobs or anything to enhance your stay while you are with us.

GENERAL INFORMATION

methodology: communicative, dynamic and participative!

Our **teachers are native speakers**, university educated and trained to teach Spanish as a foreign language through courses and seminars.

You have classes focused on conversation, grammar and vocabulary, although **we pay special attention to conversation**; we want you to be speaking Spanish in your daily life quickly.

We produce **our own material made by our teachers** with the support of our Spanish Studier Director and our Studier Director.

We have **our own compilation of the best material** from the most popular Spanish books.

Students work in **small classes** - 7 on average but a maximum of 10. This allows the teacher to dedicate more time to our students' learning needs.

The school enjoys an **international atmosphere**, welcoming 45 nationalities and making cultural exchange easy between our students.

We teach **six levels (A1, A2, B1, B2, C1, C2) and follow the EU directive** for second languages learning.

Before beginning the course, you take a **grammar and speaking test** to assess your level of Spanish. This places you at the correct level, and at the end of your course you receive a **language certificate**.

At Kingsbrook, you get **free use of computers** with Internet access as well as **free Wi-Fi** connection in all areas of the school.
